description The Kiwi Odyssey™ digital direct-to-print flat case printing system combines the convenience and cost savings of digital imaging with the proven performance and reliability of KIWI case printers. Plates and type are eliminated by a digitized membrane that produces clear, sharp impressions.

A Kiwi thermal imaging system interfaces with your PC and standard Windows 95 software to produce an inexpensive membrane that can be printing within minutes. Alternatively, use the Kiwi Digital Service Express™ to reproduce your design specs and ship digitized membranes within 48 hours.

With this new capability, changeover for multiple SKUs or logos of private labels is quick and cost-effective. And just-in-time delivery of quality printed cases becomes a practical reality.

applications Whether you print graphics, logos, text or bar codes, with the Odyssey Digital Printing system you can achieve greater efficiencies in case printing.

Odyssey offers the ideal solution for periodic short and medium runs of flat cases. Eliminate the need to inventory cases or expensive labels. Use Odyssey for limited runs of new products and samples, special bar coded shipments, etc.

features/benefits

- Large 11 x 32 inch live printing area covers a broad range KD case sizes.
- Digitized membrane and TrueType fonts produce clear, sharp printing quality that equals or exceeds more expensive processes.
- 60 case per minute production speed ensures high efficiency.
- Useful options include custom width printers, and dual cylinder, top and bottom printers are available.
- Rugged construction and proven inking system ensures reliability and performance.
- Kiwi's fifty years of innovation and service stand behind every Odyssey system.

Digital direct-to-press flat case printer

Bulletin 197

KD Case Dimensions

| width | length | thickness |
|-----------------|------------------|---|
| 26" (660 mm) | 44" (1117 mm) | Min. B Flute .110" Max: 400 lb. test |

Press Dimensions

| width | length | discharge height | shipping weight |
|------------------|------------------|------------------|------------------------|
| 43" (1092 mm) | 96" (2438 mm) | 37" (940 mm) | 2300 lbs. (1045 kg) |

Production Specs

| production rate | print resolution | print area |
|---------------------------|------------------|--------------------------------|
| to 60 cases per minute | 200 dpi | 11" x 32" (279 mm x 813 mm) |

Note: Larger width options available.

Other Specs

Power requirements: 220 volts, 50/60Hz, single phase
 Motor: 1 HP totally enclosed, fan cooled, variable speed with dial control
 Electrical controls: NEMA Type I
 Inking system: Reversing-peristaltic pump with level control
 Ink supply: 2.5 gallons
 Ink colors: Black, blue, red, green

Options

A number of options and accessories are available, and custom designs are available to meet specific requirements.

- Larger width printers
- Dual top and bottom printing cylinders
- Model SC Stacker Conveyor
- Kiwi Conveyor Catcher
- Totalizing counter
- Model RC Return Conveyor System

For Additional Information

Call Kiwi Coders at 847.541.4511. Please specify case sizes, print area, and ink color(s) desired. Optional accessories may be ordered at the same time.
